DASHBOARD

## Our *medstaffONE* Clients Say

*"Good contact  
personnel who are  
always available and  
helpful. Resolution of  
problems quickly."*

- Clinic

*"Very responsive. Presents  
candidates in a timely and  
consistent manner. Willing to  
work according to client's  
preferences."*

- Hospital

*"Medstaff has been extremely organized  
and helpful in getting us quality  
locum/interim physicians to help us with  
our staffing shortage at one of our  
hospitals. We also worked with another  
locums company previously that had  
terrible organization and customer  
service. This experience was in direct  
contrast to the customer services  
we have had with Medstaff. With  
Medstaff, we have received quality  
physician candidates to meet our  
needs. They also had a quick turnaround  
in sourcing candidates and responding  
to questions."*

- Top Teaching Hospital

*"Very easy to reach my  
account manager, who is  
very cordial and helpful.  
Physicians selected have  
been very helpful to help us  
through difficult times."*

- Private Practice
